

Educational Qualifications			
Course/Examination	Institution	Year of Passing	Result
B.Sc (Hons.) Computer Science	Delhi University	2027	1 st Year - 7.72, 2 nd - 7.72, 3 rd - 7.5
CBSE (PCM)	N.K. Bagrodia Public School, New Delhi	2023	90%
Academic Achievements			
- Guest Lecturer at Jindal University of Art and Architecture. - Guest Speaker at AWE Nite Orlando - Scored 95% in Computer Science, CBSE examination - Contributed to I-Twin Open Source Project - School Rank 3 in Silver Zone Math Olympiad - Contributed to Mozrilla(Fire Fox) Project			
Work Experience			
VR Research Intern Delhi University			
- Implemented real-time data processing and debugging pipelines for motion tracking systems. - Experimented with motion tracking using Azure Kinect for real-time full-body tracking in XR environments. - Built prototype projects in Unity and Unreal Engine to explore immersive interaction systems			
Game Development Intern AltReality Labs			August 2024 - April 2025
- Worked on an endless road-crossing game with dynamic obstacles, player controls, and score progression. - Worked on a physics-based archery game with realistic aiming, projectile motion, and target scoring. - Worked on an immersive VR bowling game with realistic ball physics and motion-based interactions.			
Campus Leadership and Initiatives			
XRVisionLabs - VR Developer			May 2025 - April 2026
XR Vision Labs is a cutting-edge deep tech company that builds immersive solutions, including Augmented Reality (AR), Virtual Reality (VR), Mixed Reality (MR), and Metaverse solutions. We help both startups and large enterprises transform how they engage with customers, train employees, and visualise products, by creating immersive and interactive experiences that go beyond traditional digital media.			
Founding Member & exCTO			
- Oversaw the full software development lifecycle of multiple projects, ensuring timely delivery and high-quality output. - Led a multidisciplinary team of total 6 developers, designers, and researchers to deliver cutting-edge XR and AI applications. - Collaborated with clients to understand requirements, translating them into actionable technical solutions.			
Data Management Head Placement Cell			August 2023 - July 2024
- Managed and maintained comprehensive databases of students and alumni for placements and internships. - Coordinated with placement coordinators and recruiters to provide relevant candidate data efficiently. - Coordinated and managed end-to-end operations of a placement drive.			
Projects			
TeleTwin: Realistic Digital twins of Telecom towers. XRchitect: Multiplayer VR app for interior design using Meta XR SDK and Photon. Combat-XR: Tactical VR simulation for defense training. AR Indoor Navigation: Marker-based real-world navigation using WebXR and SVG mapping. Archery: Hyper casual Unity game TeleAttendance: Attendance app using Telegram Bot API, Node.js, REST APIs, and database storage. LifeTime Calendar: A mobile web app to mark the dates of an event independent of the year Reinforcement Learning (ML-Agents): Trained agents for adaptive behavior (Unity ML-Agents, Python) Unreal Pixel Streaming Demo: Deployed an Unreal project with browser-based streaming			
Skills			
Technical: C#, C++, Python, JavaScript Unity 3D, Game Development, Unreal Engine, ARCore, WebXR, Three.js, Node.js REST APIs, SQL, Database Management Data Structures & Algorithms (DSA), Git/Github Soft: Project Management, Problem Solving, Leadership, Communication			
Certifications/Courses			
Unity Development – Udemy AI Workshop – BE10X Augmented Reality Course – FreeCodeCamp			
Others			
- Achieved 2 medals and 3 trophies in Hip Hop dance competitions. - Represented School Counseling Committee for student leadership and peer support, contributing to mental wellness and communication efforts.
